## United Bank Card presents the **Merchant Affinity Program**

### **An incredible opportunity that benefits your business as well as local schools!**

Schools all over North America are becoming more self-sufficient from the assistance of the new Merchant Affinity Program. This system offers business owners, managers, and operators the chance to take advantage of new low rates, merchant incentives such as quarterly cash rewards, quicker deposits into your account, free gift/loyalty card set-up and equipment upgrades, while helping local schools earn free money. It's a win-win solution for everyone.

The way it works is simple: When you process a payment through United Bank Card, (UBC) a very small percentage of every transaction is paid to the payment processing company as a fee. Part of that fee is then diverted to the school of your choice as no-strings-attached fundraising. The longer you use UBC, the more the school makes—without any extra costs to your business.
