## Jewish Education

*“The world endures only on account of the breath (words) of children learning...”*

*(Tractate Shabbos)*

If you walk through the halls of Cincinnati Hebrew Day School on a typical day, you will quickly be greeted by the sounds of children- the leaders of tomorrow and our guarantors of a bright future.

## Sarei Alaphim Campaign

### Who were the Sarei Alaphim?

When Moses' father-in-law Yisro joined the Jewish people in the desert, he saw that Moses was sitting and judging the entire nation by himself. One of Yisro's suggestions to support Moses was to establish "officers of the thousands" (Sarei Alaphim). Just as the Sarei Alaphim partnered with Moses to benefit the people, we too seek your partnership.

**CHDS has established a "Sarei Alaphim" society, to give special recognition to those who commit \$1,000 of support to CHDS each year for the next 5 years.** Contributions towards any school fundraiser can fulfill your Sarei Alaphim pledge. **Founding members will be showcased at our upcoming May 30<sup>th</sup> dinner.**

## Building Our Community

**Committing your support to CHDS distinguishes you as someone who:**

- **wants to have an impact on the survival of the Jewish people-** and realizes that education is the key.
- **understands the importance of expanding our community.** CHDS is a crucial element in the process of bringing and maintaining young, traditional Jewish families in our city.
- **recognizes how Jewish education enriches a community.** Many families in the broader community have already been drawn closer to Judaism because of CHDS.
- **believes that a Jewish Education should be available to all Jewish children** regardless of their family's financial circumstance.
